Germany, 2022

• 2nd out of 1000+ participants, **114 countries**.

National Olympiad in Informatics — Silver medal, 5th out of 300+ participants.

Kazakhstan, 2021

PROJECTS

Image-to-emoji bot

January 2023

Telegram Bot

- Created a Telegram bot that can suggest relevant emojis by photo sent.
- Suggestions are based on Google Cloud Vision API label detection, face detection and object localization methods.
- Tech Stack: Python, pyTelegramBotAPI, google-cloud-vision

Portfolio January 2023

Website

- Created a <u>website</u> with **Bootstrap** and **jQuery**.
- Tech Stack: HTML, CSS, JavaScript

EXPERIENCE

Codeforces.com 98th percentile, peak rating of 2042, Candidate Master.

Competitive Programming Coach

May 2020 - Present

5 hours a week

- Lectured and organised contests for high school and undergraduate students.
- Covered advanced algorithms, data structures and problem-solving techniques, mainly on C++.

Programming Mentor

October 2022 - Present

'nFactorial' School

7 hours a week

- Mentor of over 90 students.
- Holding online seminars and office hours analyzing programming projects of Princenton's CS program.

SKILLS

Programming languages: C++, Java, Python, C#, LaTeX.

Advanced: Algorithms and Data Structures.
